WELCOME TO TOYOTA OF LEWISVILLE RAILROAD PARK

Opened in October 2009, Toyota of Lewisville Railroad Park was developed in two phases and is the largest single capital project in the history of Lewisville. The sprawling park features sixteen sports fields, a dog park, a skate park, three lakes for irrigation, and a 1.5 mile perimeter walking/jogging trail designed to connect to the regional Trinity Trail.

The original Katy Train Depot once stood one mile north of the park and its railroad track just west of the park now serves the Denton County Transportation Authority's A-Train. The theme of the park embodies the deep tradition of the local rail service, which is emphasized in the structures that parallel the design of the original Katy Depot. Benches are placed near the main entrance and football pavilion to pay tribute to this heritage. The park continues to play a key role in the life of the surrounding community just as the Katy Depot and rail service did years ago.
